Natural Gas: Clean and Green Legislation Signed into Law

Press Release by Senator Gene Yaw

(Harrisburg) – The Governor signed into law legislation sponsored by State Senator Gene Yaw (R-Lycoming, Bradford, Sullivan, Susquehanna and Union) Wednesday, which clarifies how farmland is assessed for natural gas, by eliminating the inconsistent interpretation of the state's Clean and Green law. Senate Bill 298 amends Clean and Green to better define how the widely used program is administered and is set to go into effect 60 days following the Governor's October 27th signing date.

"This legislation is a critical update to how our farmland is to be assessed now and in the future. The development of the Marcellus Shale has changed how everything is looked at as it is a total transition to what used to be 'business as usual' on all levels of government," Yaw said. "All laws of this nature need to be scrutinized to see if they are applicable in today's world in keeping with the original spirit of the law and then changed if necessary."

The act allows for the development and use of Tier I alternative energy on any land use category of Clean and Green to be kept under preferential assessment as long as more than half of the energy annually generated is used for agriculture. Examples of Tier I include: solar photovoltaic, solar thermal, wind power, low-impact hydropower, geothermal energy, biologically derived methane gas, fuel cells, biomass energy, and

Bradford County Correctional Facility was recently honored with the American Patriot Award. The American Patriot Award was created to publicly recognize American Employers who provide extraordinary patriotic support and cooperation to their employees. This award recognizes employers who go above and

beyond the legal requirements for granting leave and providing support for military duty by their employees. Supportive employers are critical to maintaining the strength and readiness of the nation's National Guard and Reserve units. The Plaque below reads: "Presented to an American Patriot for support of the National Guard Soldier who is defending freedom at home and around the world". The American Flag in this case is a replica of those worn by the National Guard Soldiers. The flag insignia is reversed to suggest the flag is flying in the breeze as the soldiers move forward.

Bestselling Author to Speak at Keystone Theater

By: Jeff Singer, County Library Director

The Bradford County Library presents New York Times bestselling author Michael Capuzzo, author of the book "The Murder Room." Capuzzo will be speaking at the Keystone Theater in Towanda on Thursday, November 4, at 7:00 p.m.

In 1990, William Fleisher, Richard Walter, and Frank Bender formed a secretive cold-case investigation society named for Eugene Francois Vidocq, the groundbreaking nineteenth century French detective who inspired Sherlock Holmes.

Eighty-two of the world's greatest detectives meet monthly in a Victorian dining room in Philadelphia to solve cold murders over a hot lunch. It is the greatest private club of detectives ever formed, they come from 17 states and 11 foreign countries. They come from FBI, Interpol, Scotland

Yard, NYPD, the U.S. Navy, and the Egyptian Army. They are medical examiners, anti-terrorism investigators, chemists, anthropologists. They are experts in every imaginable forensic field.

In "The Murder Room" Capuzzo highlights some of the Vidocq Society's most famous cases, including: *The Case of the Prodigal Son*, the story of how an investigators psychological acumen solved the murder of a millionaire's son who had run away to Texas and was brutally murdered by a manipulative girlfriend and *The Boy in the Box*, a fifty-year-old murder that made national headlines and still haunts Philadelphia to this day.

In "The Murder Room" Capuzzo documents how the heirs of Sherlock Holmes gather to solve the world's most perplexing cold cases. The acclaimed best seller brings true crimes to life while

delving deep into the lives of the cast of characters who make up the society.

Along the way, readers will meet and get to know Frank, the world's foremost forensic sculptor, Richard, the world-renowned expert profiler of psychopaths and serial killers, and Bill, the president of the society, a former FBI and customs agent turned private eye.

Michael Capuzzo is also the author of the acclaimed *New York Times* Bestseller *Close to Shore*, a historical thriller of the true story that inspired the novel and movie "Jaws." Capuzzo is the winner of many writing prizes as a staff reporter for *The Philadelphia Inquirer* and *The Miami Herald*, and for stories in magazines including *Sports Illustrated*, *Esquire* and *Life*. He lives in Pennsylvania, where

coal mine methane. Yaw said the bill would restrict a roll-back tax to the portion of land filed under the well

restoration report and land which is incapable of being immediately reclaimed for Agricultural Use, Agricultural Reserve, or Forest Reserve as defined in the original statute.

"Farmers and landowners needed this legislation enacted to avoid paying roll-back taxes because of disparities in how Clean and Green was being assessed while open

spaces in Pennsylvania were remaining largely intact which was the original intent of the program," Yaw added.

Animal Shelter Appreciation Week Proclaimed

By: Michelle Shedden, Administrative Assistant

The Bradford County Commissioners declared November 7-13, 2010, as National Animal Shelter Appreciation Week in Bradford County.

Animal shelters act as safe havens for homeless and abused animals providing comfort and care. They also help both animals and people by

returning lost pets to their owners, enforcing animal control laws, rescuing injured animals, educating the public and matching up families with new animal companions.

The work of animal shelters often goes unnoticed and under appreciated by the citizens. We are happy to recognize the

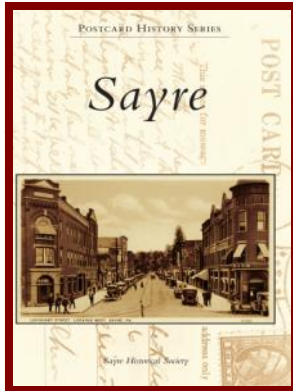

hard work of the [Bradford County Humane Society](#) in providing lifesaving services to animals in our community.

New Poll Books for Election Office

Bradford County has recently purchased 20 Express Polls (Electronic Poll Books) with HAVA grant money. These poll books have been assigned to the county's largest polling precincts (by voter count) and will

enable our Election Board Staff to process voters quickly and more efficiently. For example, poll workers will be able to look up voters who may appear in the wrong precinct and direct

them to their proper polling place. The information will be at their fingertips and the voter will no longer have to wait for the poll worker to write down their personal information, go

to a phone, contact the election office, wait for the information, and return to the voter with the information.

Joy Dieffenbach and Renee Smithkors demonstrate new poll books.

Quilt Presented to Manor Resident on 80th Birthday

By: Lori Foust, Marketing Director

Keith "Bill" Haight, a resident of Bradford County Manor and United States Marine Veteran, received a special 80th birthday gift from his niece, Brenda McClintic. She presented him with a Stars of Freedom quilt that she machine pieced and hand quilted. Brenda made the quilt even more special by personalizing it with a

photo of Bill in uniform and the dates of his service to our country. "SEMPER FI - Once a Marine, Always a Marine" is written on the back of the quilt as well.

Bill and his wife, LaVerne, know how proud & privileged Bradford County Manor feels about caring for its Veterans, so they

graciously allowed the quilt to be displayed in the receptionist office for everyone to enjoy and serve as a reminder for us to take a moment out of our busy lives and thank all the United States Veterans for their service to our great country.
