About our Program

Divorce in the U.S. affects nearly 1.3 million children every year. Fewer than half of America's children can expect to live out their childhood with both of their biological parents.

When parents are unable to deal constructively with custody, child support, and other difficult divorce issues, the pain for children and parents endures long after the divorce is final.

Parents Forever is an educational program developed by the University of Minnesota Extension for parents going through divorce. It encourages parents to negotiate divorce related decisions in a manner that reduces the negative impact of divorce on their children.

The program helps parents:

- Eliminate parental conflict in the presence of the child
- Keep the child out of the parental issues
- Provide access to both parents
- Put the best interests of the child first

Our Courses

The Parents Forever Program consists of five courses. Taken alone or in combination, the courses meet the minimum standards for court mandated education requirements. Most states require a minimum four hour class while others require six to twelve hours. The 6 - 12 hour requirements may be met by combining the classes. Discounts are available for multiple course registrations.
