D.) Subdivision Plan Review:

-2020-017- Mountain Paradise Club, LLC / Overton Township-The subdivision of lands of Mountain Paradise Club 2, LLC is a two-lot subdivision of an 83-acre parcel described in Bradford County Inst. 200811763. Proposed Lot B (49.54 acres) is vacant and is to be a lot addition to adjoining lands of Treaster. Lot 1 is the remaining land. It is vacant and is for agricultural use at this time. The surrounding parcels in this area are generally used for agricultural and residential purposes. There is no sewage collection system in the vicinity of this subdivision.

Action Needed: Modification Request from **Section 504.2 “On-Lot Septic”** for Lot #1.

Justification: Lot #1 is to remain as agricultural use at this time.

-2020-018 Lavern & Tammy Jackson / Springfield Township-The subdivision of lands of Lavern M. Jackson and Tammy E. Jackson is a two-lot subdivision of a 45-acre parcel described in Bradford County Inst. 201518195. Proposed Lot 2 (1.90 acres) is occupied by a house and water supply system. This lot will utilize a sewer easement for an existing sand mound. Lot 1 is the remaining land. It is vacant and is for agricultural use at this time. The surrounding parcels in this area are generally used for agricultural and residential purposes. There is no sewage collection system in the vicinity of this subdivision.

Action Needed: Modification Request from **Section 504.2 “On-Lot Septic”** for Lot #1.

Justification: Lot #1 is to remain as agricultural use at this time.

2020-019 Daniel & Annette Patton / Springfield Township- The subdivision of lands of Daniel and Annette Patton is a two-lot subdivision of a 155-acre parcel described in Bradford County Inst. 200506785. Proposed Lot 3 (2.00 acres) is occupied by a house with on-site septic and water supply systems. Lot 1 is the remaining land. It is vacant and is for agricultural use at this time. Lot 2 was previously conveyed, The surrounding parcels in this area are generally used for agricultural and residential purposes. There is no sewage collection system in the vicinity of this subdivision.

Action Needed: Modification Request from **Section 504.2 “On-Lot Septic”** for lot #1.

Justification: Lot #1 is to remain in agricultural use at this time.

-2020- 021 Ralph & Myra McNeal / Towanda Township – First Light proposes to lease a 50’ x 50’ area of a parcel owned by Ralph and Myra McNeal, situated on South Main Street (SR 2027). The project will include the construction of a 12’ x 20’ building that will host computer cabinets. The purpose of the facility is to improve the data processing speeds from data running along the Right – Of – Way at South Main Street/220. The leased parcel will share an access drive, a 20’ wide access easement is proposed.

Action Needed: Modification Request from **Section 504.2 “On- Lot Septic”** for Lot #1

Justification: FirstLights proposed facility will be an unmanned area and will contain no sewage generating structures.

Action Needed: Modification Request from **Section 401.17.B.1 “Right – Of – Way Width (50’).**

Justification: FirstLights proposed access easement is 20’ wide. The reason for this width is due to the existing dirt road that FirstLight is planning to use as their access road. The dirt road is 20’ wide. Due to the existing road and the size of the road FirstLight does not need a larger access easement.

Old Business Summary

2004 SALDO Amendments: The Community Planning and Mapping Staff is currently in process of performing an update to the Bradford County SALDO in coordination with the County Planning Commission. A draft document was provided to the Planning Commission for comment on August 20, 2019 which contained the first two sections of the SALDO with new definitions for review. Updates will be provided periodically to the BCPC and public as the process is completed.

NBIS Local Bridge Inspection Program: The 2017-2021 NBIS Umbrella Agreement has been fully executed and will go into effect on January 1, 2017. This Program will ensure that all locally owned bridges are inspected at their needed interval for the next 5 year cycle. Inspections for the 2017 season have recently been completed and the final inspection reports are being reviewed by PennDOT for approval. The County currently has 22 bridges that are classified as structurally deficient. We are currently in the process of working with our engineers to weigh the options for reducing this number through a bridge bundling process.

County Act 13 Bridge Group Project: The County is currently undertaking an 8 Bridge Group Project wholly funded by the County's Act 13 Allocation. This project will replace 8 County Bridges simultaneously and will result in a 35% reduction in Structurally Deficient Bridges on the County roster, while also providing a significant cost savings. The project timeline is for Design to occur throughout 2018-2019 and Construction to follow in 2019-2020 when all the bridges will be fully completed.

Phase 1 Construction has started on the first 5 Bridges. The current status of the projects is as follows:

Bridge 11: 100% Completed and Opened on 10-29-19.

Bridge 31: Bridge #31 is open to traffic. The only remaining work is the roadway approach paving which will occur in concert with Bridge #39 once it has been completed.

Bridge 18: Bridge completed and open to traffic. Roadway approach paving will be completed in the spring.

Bridge 39: Bridge is under construction, both abutments have been poured. Projected completion is May 2020

Bridge 14: This is a prefabricated steel structure which will be delivered to the site and installed once the existing abutments have been rehabilitated. Demolition of the existing structure is expected to begin in the next few weeks. Projected completion date is June 2020.

Phase 2 has been bid for the remaining 3 Bridges. Bridges, 36, 44, and 51 received a total of 11 bids with the apparent low bidder being Susquehanna Valley Construction at a cost of \$ 1,377,144.43. The Commissioners will take action on the proposal at their March 12, 2020 meeting.

County Bridge # 38 / Wells Twp.: This Structure is currently included on the adopted 2017-2020 Northern Tier RPO – TIP. It is slated to be replaced in 2020. This is a historic Structure which may cause some delays in the replacement process. Preliminary Engineering has completed the in-depth inspection of the structure and is now in a holding pattern waiting for approval to move forward as this bridge is attached to the Historic Metal Truss Bridge Management Plan. FHWA has reviewed the draft needs assessment and agrees the current structure does not currently meet the public need in the area. A re-scoping field view of the project is being held on November 18, 2019 to reclassify the project from rehabilitation to a replacement.

Bradford County Historic Metal Truss Bridge Management Plan: The County is currently undertaking the a Historic Metal Truss Bridge Management Plan being funded through the Federal Highway Administration (FHWA) as part of a Letter of Agreement with the PennDOT, PHMC-SHPO and FHWA to establish a project need and method of progression to clear the remaining County Owned Truss Bridges as required by the

National Historic Preservation Act. This study will begin the clearance process for the remaining 6 historically eligible bridges owned by the County and includes Bridges: #6 (Burlington Township), #8 (West Burlington Township), #13 (Franklin Township), #27 (South Creek Township), #38 (Wells Township) and #41 (Wyalusing Township). The end result of this plan will be an in-depth needs assessment and long range management plan to address the issues associated with these structures. Public Outreach meetings have been held on the following Dates:

- Bridge #38 – Wells Twp. – 9/3/2018
- Bridge #27 – South Creek Twp – 9/5/2018
- Bridge #13 – Franklin Twp – 9/10/2018
- Bridge #41 – Wyalusing Twp – 10/2/2018
- Bridge #7 – West Burlington Twp – 10/8/2018
- Bridge #6 – Burlington Township – Public meeting was waived, Public Meeting held to Bridge Bundle was sufficient.

Currently a meeting been scheduled with the FHWA, SHPO and PennDOT to discuss the draft report and establish the guidelines for the final management plan. This meeting is slated to take place on January 24th 2020.
