2020-038	Melissa Drake	Ulster Township

C.) Visitors to be Heard:

D.) Subdivision Plan Reviews:

E.) Land Development Reviews

- **2020 – 026 Frandsen Real Estate, LLC / South Waverly Borough-** The project proposes to develop multi-family dwelling units along Loder Street in South Waverly Borough. The project will develop approximately six (6) acres of the 11.55 acre parcel into four (4) apartment buildings with supporting infrastructure. Erosion and Sediment controls will be installed and maintained during construction. A stormwater management systems will control post-construction site run-off. The proposed entrance will be from Loder Street and connect to Mystic Drive. The street system and infrastructure will be dedicated to the borough (or applicable utility) upon project completion. A traffic impact assessment will be completed once the COVID- 19 restrictions are lifted.

- **Action Needed:** Applicant is seeking **Conditional/Preliminary Approval** contingent upon: Municipal Comment Form, Zoning Compliance, Water/ Sewer/Electric/Gas will serve letters, Municipal Driveway Permit, Bradford County Conservation District Approval, Satisfaction of Engineer Review Comments and Fees.

- **2020-035 Stevensville DPP, LLC / Stevens Township-** The project proposes to subdivide a 1.6 +/- acre lot to construct a new 9,100 SF retail store. An access drive is proposed for access from S.R. 706. A parking lot, utilities and associated stormwater management facilities are proposed. The lot is proposed to be serviced by a private on-lot sewer and on-lot water well. 37 parking spaces are proposed, 2 ADA. 30,000 SF of impervious surface is proposed, there is no existing impervious. The lot is currently a vacant field used for agriculture.

- **Action Needed:** Applicant is seeking **Conditional/Preliminary Approval** contingent upon: Municipal Comment form, PennDOT HOP, NPDES Approval, Satisfaction of Engineer Review Comments and Fees.

- **2020-037 JK & JK Investments, LLC / Standing Stone Township-** JK & JK Investments, LLC proposes to develop a vacant parcel to an equipment storage yard and maintenance garage along SR 006 in Standing Stone Township. The project site is located within the Highway Commercial-Industrial Zoning District. The project will develop approximately 20 acres of the 29 acre parcel. The facility will be utilized by B & K Equipment, LLC to store and service equipment. Erosion and Sediment controls will be installed and maintained during construction. A proposed low volume driveway will provide access to SR 006. The site design is proposing 32 parking spaces, 2 ADA. 465,000 SF of impervious surface is proposed, there is no existing impervious.

-**Action Needed:** Modification request from Section 508.1.O. “A minimum of eight percent (8%) of the interior of any parking lot having twenty-five (25) or more parking spaces shall be maintained with landscaping, including trees and shrubs in plots of at least sixty (60) SF in area.

-**Justification:** The site design provides 32 stalls with 2 ADA stalls for a total of 34 stalls. Due to the use of the site as an equipment storage yard, JK & JK requests no landscaping be required in the parking area.

-**Action Needed:** Applicant is seeking **Conditional/Preliminary Approval** contingent upon: Municipal Comment form, Zoning Compliance, PennDOT HOP, Bradford County Conservation District Approval, Satisfaction of Engineer Review Comment and Fees.

F.) **Municipal Planning Commission Review:**

- 2020 – 007 Randy & Nancy Williams / Athens Township

B. Outgoing:

Old Business Summary

2004 SALDO Amendments: The Community Planning and Mapping Staff is currently in process of performing an update to the Bradford County SALDO in coordination with the County Planning Commission. A draft document was provided to the Planning Commission for comment on August 20, 2019 which contained the first two sections of the SALDO with new definitions for review. Updates will be provided periodically to the BCPC and public as the process is completed.

NBIS Local Bridge Inspection Program: The 2017-2021 NBIS Umbrella Agreement has been fully executed and will go into effect on January 1, 2017. This Program will ensure that all locally owned bridges are inspected at their needed interval for the next 5 year cycle. Inspections for the 2017 season have recently been completed and the final inspection reports are being reviewed by PennDOT for approval. The County currently has 22 bridges that are classified as structurally deficient. We are currently in the process of working with our engineers to weigh the options for reducing this number through a bridge bundling process.

County Act 13 Bridge Group Project: The County is currently undertaking an 8 Bridge Group Project wholly funded by the County's Act 13 Allocation. This project will replace 8 County Bridges simultaneously and will result in a 35% reduction in Structurally Deficient Bridges on the County roster, while also providing a significant cost savings. The project timeline is for Design to occur throughout 2018-2019 and Construction to follow in 2019-2020 when all the bridges will be fully completed. Phase 1 Construction is complete as of June 5, 2020.

Phase 2 has been bid for the remaining 3 Bridges. Bridges, 36, 44, and 51 received a total of 11 bids with the apparent low bidder being Susquehanna Valley Construction at a cost of \$ 1,377,144.43. The Commissioners awarded the contract on March 12, 2020.

County Bridge # 38 / Wells Twp.: This Structure is currently included on the adopted 2017-2020 Northern Tier RPO – TIP. It is slated to be replaced in 2020. This is a historic Structure which may cause some delays in the replacement process. Preliminary Engineering has completed the in-depth inspection of the structure and is now in a holding pattern waiting for approval to move forward as this bridge is attached to the Historic Metal Truss Bridge Management Plan. FHWA has reviewed the draft needs assessment and agrees the current structure does not currently meet the public need in the area. A re-scoping field view of the project is being held on November 18, 2019 to reclassify the project from rehabilitation to a replacement.

Bradford County Historic Metal Truss Bridge Management Plan: The County is currently undertaking the a Historic Metal Truss Bridge Management Plan being funded through the Federal Highway Administration (FHWA) as part of a Letter of Agreement with the PennDOT, PHMC-SHPO and FHWA to establish a project need and method of progression to clear the remaining County Owned Truss Bridges as required by the National Historic Preservation Act. This study will begin the clearance process for the remaining 6 historically eligible bridges owned by the County and includes Bridges: #6 (Burlington Township), #8 (West Burlington Township), #13 (Franklin Township), #27 (South Creek Township), #38 (Wells Township) and #41 (Wyalusing Township). The end result of this plan will be an in-depth needs assessment and long range management plan to address the issues associated with these structures. Public Outreach meetings have been held on the following Dates:

Bridge #38 – Wells Twp. – 9/3/2018
Bridge #27 – South Creek Twp – 9/5/2018
Bridge #13 – Franklin Twp – 9/10/2018
Bridge #41 – Wyalusing Twp – 10/2/2018
Bridge #7 – West Burlington Twp – 10/8/2018
Bridge #6 – Burlington Township – Public meeting was waived, Public Meeting held to Bridge Bundle was sufficient.

Plans have been approved by SHPO, PHMC and Consulting Parties. Management and Funding Plan will be developed in cooperation with PennDOT District 3-0.

New Business Summary

County Parks Master Plan and County Parks Advisory Committee:

May 6th Meeting Canceled due to COVID-19 Pandemic.
Previous Meeting was held on December 4, 2019.

Natural Gas Exploration Advisory Committee:

The next meeting is TBD. Meetings are being held in coordination with the Penn State Extension Natural Gas Webinar Series. These webinars are no longer held at regular intervals, meetings will be announced 7 days prior once the next webinar is scheduled.

The previous meeting was held February 27th, 2020.
Webinar from 1:00pm-2:00pm “Using Drones in the North Dakota Oil Fields”
