C.) Visitors to be Heard:

D.) Subdivision Plan Reviews:

- **2020-048 Sandra Schoonover / Standing Stone Township-** The subdivision of lands of Ronald K. Schoonover and Sandra E. Schoonover is a 2-lot subdivision of a 54-acre parcel described in Bradford County Deed Book 157 at Page 141. Proposed lot #3 (11.00 acres) is occupied by a house with a septic system. The water supply is located on the remaining lands of Schoonover and will necessitate a water line and water well easement. Likewise, access will be by a fifty-foot- wide Access Easement over the lands of Brian Schoonover and Nichole Schoonover. Lot #1 (43 acres) is the remaining land and is occupied by a house with septic and water supply systems. Lot #2 was previously conveyed. The surrounding parcels in this area are generally used for agricultural and residential purposes. There is no sewage collection system in the vicinity of this subdivision.

Action Needed: Modification request from Section 404.1 “Every lot shall abut a street” for lot #3.

Justification: Lot #3 will utilize a 50’ wide access easement for access to the public road (Keene Summit Road, SR 1023).

- **2020-051 Michael & Dianne J. Maslov / Pike Township-** The subdivision of lands of Michael Maslov and Dianne J. Maslov is a 2-lot subdivision of a 13.6 acre parcel described in Bradford County Deed Book 291 at Page 581. Lot #1 (5.114 acres) is the remaining lands it is occupied by a house with existing on-lot septic supply and will utilize an easement for access to a private water source located on lot #3. Lot #3 (6.428 acres) has no proposed improvements and is considered to be a land transfer only for agricultural use. Lot #2 was previously conveyed.

Action Needed: Modification request from Section 504.2 “On-lot Septic” for lot #3.

Justification: Lot #3 is to be for agricultural use at this time.

Old Business Summary

2004 SALDO Amendments: The Community Planning and Mapping Staff is currently in process of performing an update to the Bradford County SALDO in coordination with the County Planning Commission. A draft document was provided to the Planning Commission for comment on August 20, 2019 which contained the first two sections of the SALDO with new definitions for review. Updates will be provided periodically to the BCPC and public as the process is completed.

NBIS Local Bridge Inspection Program: The 2017-2021 NBIS Umbrella Agreement has been fully executed and will go into effect on January 1, 2017. This Program will ensure that all locally owned bridges are inspected at their needed interval for the next 5 year cycle. Inspections for the 2017 season have recently been completed and the final inspection reports are being reviewed by PennDOT for approval. The County currently has 22 bridges that are classified as structurally deficient. We are currently in the process of working with our engineers to weigh the options for reducing this number through a bridge bundling process.

County Act 13 Bridge Group Project: The County is currently undertaking an 8 Bridge Group Project wholly funded by the County's Act 13 Allocation. This project will replace 8 County Bridges simultaneously and will result in a 35% reduction in Structurally Deficient Bridges on the County roster, while also providing a significant cost savings. The project timeline is for Design to occur throughout 2018-2019 and Construction to follow in 2019-2020 when all the bridges will be fully completed.

Phase 1 Construction is complete as of June 5, 2020.

Phase 2 has been bid for the remaining 3 Bridges. Bridges, 36, 44, and 51 received a total of 11 bids with the apparent low bidder being Susquehanna Valley Construction at a cost of \$ 1,377,144.43. The Commissioners awarded the contract on March 12, 2020.

Bridge #51 was open to traffic on August 10, 2020. Bridge #44 will begin Construction within the next week and is expected to take approximately 6 weeks. Bridge #36 will follow sometime in September.

County Bridge # 38 / Wells Twp.: This Structure is currently included on the adopted 2017-2020 Northern Tier RPO – TIP. It is slated to be replaced in 2020. This is a historic Structure which may cause some delays in the replacement process. Preliminary Engineering has completed the in-depth inspection of the structure and is now in a holding pattern waiting for approval to move forward as this bridge is attached to the Historic Metal Truss Bridge Management Plan. FHWA has reviewed the draft needs assessment and agrees the current structure does not currently meet the public need in the area. A re-scoping field view of the project is being held on November 18, 2019 to reclassify the project from rehabilitation to a replacement.

Bradford County Historic Metal Truss Bridge Management Plan: The County is currently undertaking the a Historic Metal Truss Bridge Management Plan being funded through the Federal Highway Administration (FHWA) as part of a Letter of Agreement with the PennDOT, PHMC-SHPO and FHWA to establish a project need and method of progression to clear the remaining County Owned Truss Bridges as required by the National Historic Preservation Act. This study will begin the clearance process for the remaining 6 historically eligible bridges owned by the County and includes Bridges: #6 (Burlington Township), #8 (West Burlington Township), #13 (Franklin Township), #27 (South Creek Township), #38 (Wells Township) and #41 (Wyalusing Township). The end result of this plan will be an in-depth needs assessment and long range management plan to address the issues associated with these structures. Public Outreach meetings have been held on the following Dates:

Bridge #38 – Wells Twp. – 9/3/2018

Bridge #27 – South Creek Twp – 9/5/2018

Bridge #13 – Franklin Twp – 9/10/2018

Bridge #41 – Wyalusing Twp – 10/2/2018

Bridge #7 – West Burlington Twp – 10/8/2018

Bridge #6 – Burlington Township – Public meeting was waived, Public Meeting held to Bridge Bundle was sufficient.

Plans have been approved by SHPO, PHMC and Consulting Parties. Management and Funding Plan will be developed in cooperation with PennDOT District 3-0.
