C. Visitors:

D.) Subdivision Plan Reviews:

2024-093 Clinton Crawford / Wilmot Township: The subdivision of lands of Clinton L. Crawford is a two-lot subdivision of a 61.4 acres parcel described in Bradford County Inst. 202310984. Proposed Lot #2 (2.00 acres) is occupied by a house with on-site septic and water supply systems. Proposed Lot #4 (2.00 acres) is occupied by a mobile home with on-site septic and water supply systems. Lot 2 is the remaining land. It is vacant and is for agricultural use at this time. Lot 1 was previously conveyed. The surrounding parcels in this area are generally used for agricultural and residential purposes. There is no sewage collection system in the vicinity of this subdivision.

Action Needed: Applicant is seeking a Modification Request from **Section 504.2 “On-Lot Septic”** for Lot 2.

Justification: Lot 2 is to be used for agricultural use.

E.) Land Development Reviews

2024-079 Bradly J. Chaffee / Athens Borough- Major Land Development of a new self-storage unit located in Athens Borough. Applicant is proposing the construct 5 prefabricated steel self-storage buildings at 178 N. Elmira St. in Athens. The existing house will be removed from the site. No sewer or water is proposed. Parcel is currently located in a business zoning and self-storage is a permitted use for a business zone.

Action Needed: Applicant is seeking **Conditional/Preliminary** approval contingent upon Zoning Compliance, Satisfaction of Engineer Review Comments and Fees.

2024-083 Eureka Resources / Standing Stone Township- The proposed Major Land Development-Eureka Resources Existing Storage Buildings-had previously constructed a gravel access road and pad to provide access to and a site for several storage building structures for use at their existing facility on private lands in Standing Stone Township. At the request of both the BCCD & BCPC, the applicant is now seeking the necessary permits/approvals. This will include Land Development (including a lot consolidation for the two properties) as well as an NPDES General Permit. Proposed additional improvements will be limited to the installation of the required storm water management conveyance (vegetated channel) and treatment facilities (infiltration basin) to manage the increase in impervious area. The proposed BMPs will ensure that no post-development increase in runoff rate is realized while also providing the required Pre-Post volume comparison treatment and removal. The site is currently not identified

by a zoning district. The proposed limit of disturbance for the project is 3.8 acres and will require a General NPDES permit. The project is considered a balanced site; however, any imported material for the project shall be clean fill material as defined in the plans. The Erosion and Sediment Control Plan have been designed to minimize the extent and duration of earth disturbance during the construction phase. There is no proposed or previously installed water/sewer service to the storage buildings.

Action Needed: Applicant is seeking **Conditional/Preliminary** approval contingent upon NPDES permit, Satisfaction of Engineer Review Comments and Fees.

2024-092 TKC CCCXLI, LLC (Tractor Supply) / Wyalusing Borough: The proposed site is located at the intersection of State Street and Homets Heights Road between the NAPA Auto Parts and FedEx in Wyalusing Borough. The proposed improvements include the construction of a new 21,930 sq. ft. building with 14,290 sq. ft. of outdoor display area, parking area, access drive and a storm water management system. The site currently exists as active agricultural lands and has for the past 50 years. There are wetlands on the north and east side of the site and the site discharges to the northeast directly into Wyalusing Creek.

Action Needed: Applicant is seeking **Conditional/Preliminary** approval contingent upon Municipal Comment, Zoning Compliance, and Satisfaction of Engineer Review Comments/Fees.

2024-104 William & Linda Hollenback (Wysox Solar Project) / Wysox Township- The Proposed Solar Energy Facility, which consists of four (4) separate solar arrays (projects), is located on three privately owned parcels (6208703013000000, 6208706011002000, 620870301400000) of land in Wysox Township, owned by William & Linda Hollenback. The existing land conditions are comprised of agricultural land. The Projects are proposed to be situated fully within the Manufacturing zoning district and will consist of construction of solar arrays and associated infrastructure such as access roads, electrical collection lines, inverters, transformers, fencing and signage. The Projects will be developed in four (4) separate solar arrays with fencing enclosing each array and the entirety of the development area. The anticipated development area will total approximately 42 acres. The energy developed by the Projects will be collected and transferred to existing utility poles owned by PPL Electric Utilities where it will then be connected to the Existing PPL electric power infrastructure. The Projects will be developed in accordance with the conditions specified within the Wysox Township ZHB Decision, in addition to the Wysox Zoning Ordinance, the Bradford County's SALDO and all applicable permits required by Pennsylvania DEP. Wysox Township Zoning Hearing Board rendered their decision on May 12, 2024 granting the Applicant Special Exception approval with certain conditions to provide for the placement of a power generating facility upon the property.

Action Needed: Applicant is seeking **Conditional/Preliminary** approval contingent upon Municipal Comment, Zoning Compliance, and Satisfaction of Engineer Review Comments/Fees.

Old Business Summary

2004 SALDO Amendments: The Community Planning and Mapping Staff is currently in process of performing an update to the Bradford County SALDO in coordination with the County Planning Commission. A draft document was provided to the Planning Commission for comment on August 20, 2019 which contained the first two sections of the SALDO with new definitions for review. Updates will be provided periodically to the BCPC and public as the process is completed.

NBIS Local Bridge Inspection Program: The 2022-2027 NBIS Umbrella Agreement is currently under review with PennDOT and will go into effect on shortly. This Program will ensure that all locally owned bridges are inspected at their needed interval for the next 5 year cycle. Inspections for the 2021 season have been completed and the final inspection reports are being reviewed by PennDOT for approval. The County currently has 9 bridges that are classified as structurally deficient. We are currently in the process of working with our engineers to weigh the options for reducing this number through a bridge bundling process.

County Bridge # 38 / Wells Twp.: The bridge replacement project on Farm View Rd started on July 22, 2024. This project was originally scheduled for 2025, but due to permitting issues on another project they were able to move the start date up for this one. The project is tentatively scheduled to be completed in 140 days for a completion date on or before December 8, 2024. The road will be closed and traffic should follow the posted detour using: SR 549, SR 4031 (Coryland Rd), SR 4034 (Roaring Run RD), Updike Rd and Farm View Rd.

Bradford County Land Bank Feasibility Study: The County Commissioners in coordination with Towanda Borough and Progress Authority have retained Dawood Engineering to perform a Land Bank/Blight Mitigation study for Bradford County. The goal of this program is to address on-going blight issues that exist within the county by providing a mechanism to rehabilitate properties and get them back on the tax rolls. Phases 2 & 3 have been executed by the County Commissioners. Dawood recently met with the Commissioners, Planning Staff and the Progress Authority to discuss reorganization of the dormant Redevelopment Authority. The County is currently seeking letters of interest for individuals to board seats for the organization which is the next step towards repurposing the Redevelopment Authority into a Land Bank.
