## SCOPE OF WORK

The Bradford County Board of Commissioners seeks to contract with an experienced library consultant(s) to evaluate the current model for the provision of library services within the Bradford County Library System and its nine member libraries and to develop comprehensive recommendations for delivering those services in a more equitable and economical manner.

The Bradford County Commissioners provide funding to the Bradford County Library, which is one of the nine member libraries (and is currently designated the headquarters library of) the Bradford County Library System. According to PA Public Library Statistics for Reporting Year 2022, local government revenue made up 89% (\$432,766) of the total operating revenue of the Bradford County Library, which totaled \$486,334. The Bradford County Commissioners also provide an annual contribution of \$30,000 to the Bradford County Library System toward the System Administrator's salary as well as a full employee benefits package.

In the Fall of 2023, the Bradford County Commissioners began exploring a possible restructuring of the Bradford County Library. As part of this process, a Library Advisory Committee ("LAC") was assembled in October 2023 to formulate recommendations concerning the best use of the current Bradford County Library building and the best use of County funds for library purposes. The LAC tendered to the Commissioners its recommendations and findings, which provided for (1) "the Bradford County Library [to stay] open" subject to six recommendations, and (2) engagement of an outside library consultant to "analyze possible opportunities and paths to restructure both the Bradford County Library and the Library System of Bradford County." Four of the six recommendations made by the Library Advisory Committee sought the assistance of an outside library consultant to ensure that pathways forward would align with Pennsylvania Code and Regulations (as overseen by the Office of Commonwealth Libraries), would adhere to a reasonable yet expedient timeframe, and would result in the ultimate goal of providing quality library service to all residents of Bradford County.

The proposed items put forth by the Library Advisory Committee, if approved, would involve not only a systemic change in the funding streams of the Bradford County Library and its relationship to the government of Bradford County, but a change in the operations of the Library System of Bradford County. In one potential scenario, the Library System of Bradford County would remain a federated system of nine independent libraries, with the Bradford County Library transitioning from an agency of the Bradford County government to an independent 501(c)3 non-profit corporation. Additionally, management of bookmobile services would move from the Bradford County Library to being overseen by the Library System of Bradford County, with arrangement for a manageable budget and diversified funding streams (including State aid). Such a shift in services would also necessitate an examination of state-defined service areas for the nine system libraries, with the potential for each to petition the state for an expansion or reduction of service areas as is seen fit.

The first step in this potential series of changes is to have a thorough evaluation of relevant data and public opinion on the quality, use, and availability of library collections, space, services, programs, and outreach in Bradford County, to evaluate the strength of libraries as community anchors, identifying opportunities to grow their significance within individual communities, and allowing individual libraries to seek out community partnerships and regenerative funding opportunities that align with community needs and values. The goal is to ultimately arrive at a reasonable and sustainable amount of county-level funding provided to support the nine system libraries of Bradford County. In one potential scenario, county-level funding would be distributed to and dispersed through the Library System of Bradford County using an agreed-upon formula similar to how State Aid is dispersed, with a portion retained for system services.

Results from the evaluation, as well as any recommendations of the consultant arising from that place, will be available for use by the Library System of Bradford County, the Library Directors and Library Boards from each of the nine independent system libraries, and the Bradford County Commissioners, to help guide in developing strategic and long-range plans to meet the current and future needs of Bradford County residents. The following goals and scope should be considered in relationship to the above objectives:
