

ELECTION BOARD OCTOBER 16, 2024

PLEDGE OF ALLEGIANCE TO THE FLAG

CALL TO ORDER:

VISITOR'S REMARKS CONCERNING THE AGENDA:

UNFINISHED BUSINESS:

NEW BUSINESS:

Consider adopting a formal policy concerning the Elections Office's coding in Pennsylvania's Statewide Uniform Registry of Electors (SURE) system of potentially defective and/or incomplete mail-in and absentee ballot envelopes, such that such items would be marked "cancelled" (or a variation thereof) rather than "pending" (with a description of the basis for the alleged defect or incompleteness).

Consider adopting a formal policy to amend the Elections Office's currently-suspended practice concerning the allowance of curing by mail-in and absentee voters in light of potentially defective and/or incomplete mail-in and absentee ballot envelopes, so as not to permit such curing by the potential voter.

Consider adopting a formal policy to allow the casting of provisional ballots on Election Day at their respective precincts by voters whose mail-in or absentee ballot envelopes have been identified by the Elections Office as potentially defective and/or incomplete, and it has been determined that the ballot has not been cast and counting at canvass of any such properly cast provisional ballot.
